Dear James,

I have reported everything to Director Zang face to face.

Firstly, he asked me to convey his gratefulness to you and David, he thank you for your hard and fruitful work, he believe we have already got a excellent beginning, we will have more cooperation opportunities in Oman and other place.

Secondly, please convey his greetings to The B Family, their support is the base of CEFC's further development.

Thirdly, Director Zang represent Chairmen Ye to sincerely invite Royal Office to visit CEFC in Shanghai, they will all be present then.

Lastly, Director Zang and Chairmen Ye will visit the US together in May, they are willing to have a meeting with H and you by any chance. Will discuss further cooperation opportunities in the US/ Middle East/ Europe then.

Director Zang Thank you again for your pragmatic arrangement and he is looking forward to see you soon.

Best Regards,

Caesar

Guys important outputs from visit

Oman

In the meeting with General Idris and the Royal office, the following has been agreed.

1. NBO, TFI is removed and CEFC can immediately begin the negotiations with Qatar entity to buy 34.9 per cent, Fin corp will navigate the purchase and should be mandated as they understand primaries, they will prepare other minorities too form majority. David will meet General and Royal office to finalise next week.

2. Dir. Lee Long intimated that Fin corp could be a target, David will develop

3. Meeting with Royal office went well and principals enjoyed the outputs, the meeting exceeded its planned timetable, which is hugely positive.

4. Dr. Salem has been told to step aside by Royal office I will describe in a separate note.

5. From the 1st May, all projects signed with TFI will be offered to CEFC.

6. CEFC will begin to discuss with Min of Oil and Gas projects direct.

7. David has Oman/ Iran pipeline and will develop

Observations, Royal office mentioned the U.S support had been, and was a big factor. I would suggest planning a visit in Shanghai with Royal office ASAP, with US team present, this would be a EXCELLENT PR. Director Z to host ?

The offer of a 100 per cent owned Omani company for CEFC sends a strong message to international and domestic observers, only one other company, Babcock a UK security firm has this to my info, this is because locals cannot interfere in this business. TH offer is that they understand the same applies to CEFC, CEFC should be invisibly linked with the R O ,and everyone understands this is the reason there is no local partners, I would strongly advise taking this forwards as its a significant gesture from the Sultan.

More data to follow, but these are the primary outputs.

CEFC met all expectations and director L Y did an excellent job, the General conveyed his greetings to the Chairman and Director Zang as he was well briefed on the drivers. He was thrilled with his gift and where David and i. Many thanks to the Chairman

Kindest

James
